

VERSION 1.0 - PRODUCTION CANDIDATE

Arabic Workbook

العربية

Writing foundations, core grammar, 1,000 audited vocabulary entries, and 1,000 human-contributed bilingual practice sentences with handwriting and retrieval space.

Vocabulary 751-1000

Natural, idiomatic learner language takes priority over artificial uniqueness. Genuine homographs are retained when their learner meaning and grammatical role differ. Transliteration is intentionally omitted from sentence drills rather than teaching inconsistent ad-hoc romanization.

Vocabulary 751-1000

Cover the meaning, retrieve it, then write the target item from memory. Legitimate homographs may recur only when learner meaning and grammatical role differ.

751

يسمح

allows; permits
imperfect / present verb

752

أهداف

goals; objectives
noun

753

يسأل

asks; questions
imperfect / present verb

ابتعد

moved away; kept away; move away!
perfect / past verb / imperative verb

Sources, licensing, and QA scope

Vocabulary: drawn from this repository's canonical audited top-1,000 deck for the language. Repository source and audit records remain the source of truth.

Sentences: selected from the ManyThings bilingual exports of the Tatoeba Project. Each redistributed pair retains the supplied sentence-level attribution. Tatoeba textual data is distributed under CC BY 2.0 France.

Quality scope: release gates check canonical dataset integrity, row counts, duplicate handling, script plausibility, source attribution, PDF structure, font embedding, and renderability. These checks materially reduce risk but do not substitute for independent native-speaker editorial certification; no absolute error-free claim is made.
