

VERSION 1.0 - PRODUCTION CANDIDATE

French Workbook

Français

Writing and pronunciation foundations, core grammar, 1,000 audited vocabulary entries, and 1,000 curated bilingual practice sentences with handwriting and retrieval space.

Sentences 126-250

Natural, idiomatic learner language takes priority over artificial uniqueness. Genuine homographs are retained when their learner meaning and grammatical role differ. A source-backed pronunciation key is taught in Foundations; sentence drills then use normal target-language spelling rather than inconsistent ad-hoc romanization.

Practice sentences 126-250

Read the target sentence, cover the English, retrieve the meaning, then reproduce the target sentence. A-D labels are internal length/usefulness progression bands, not CEFR certifications.

Je peux venir demain.

126 · A

I can come tomorrow.

CC-BY 2.0 (France) Attribution: tatoeba.org #421381 (CM) & #421763 (sysko)

Je peux t'aider.

127 · A

I can help you.

CC-BY 2.0 (France) Attribution: tatoeba.org #1887107 (CK) & #3230878 (Dreamk33)

Je peux vous comprendre.

128 · A

I can understand you.

Sources, licensing, and QA scope

Vocabulary: drawn from this repository's canonical audited top-1,000 deck for the language. Repository source and audit records remain the source of truth.

Arabic and French sentences: quality-filtered from the ManyThings bilingual exports of the Tatoeba Project, with supplied sentence-level attribution retained under CC BY 2.0 France.

Urdu sentences: original controlled standard-Urdu learner sentences authored for this workbook from reviewed grammar-safe conversation families. They replace a rejected external candidate corpus that failed the release linguistic audit.

Quality scope: release gates check canonical dataset integrity, row counts, duplicate handling, script plausibility, sentence-type balance, source diversity where applicable, blocked Urdu legacy-error patterns, PDF structure, font embedding, and renderability. These checks materially reduce risk but do not substitute for independent native-speaker editorial certification; no absolute error-free claim is made.

Pronunciation foundations: broad-IPA and articulatory guidance was cross-checked against Karin C. Ryding, *A Reference Grammar of Modern Standard Arabic* (Cambridge University Press); Bernard Tranel, *The Sounds of French: An Introduction* (Cambridge University Press); Saleem et al., *Urdu Consonantal and Vocalic Sounds* (CRULP / Center for Language Engineering); and the Omniglot Urdu-script reference for Nastaliq, nūn ghunnah, and aspirated-letter conventions. These are broad learner reference targets, not a claim that each language has one accent-free phonetic realization.
