

VERSION 1.0 - PRODUCTION CANDIDATE

# Arabic Workbook

العربية

Writing and pronunciation foundations, core grammar, 1,000 audited vocabulary entries, and 1,000 curated bilingual practice sentences with handwriting and retrieval space.

## **Vocabulary 751-1000**

Natural, idiomatic learner language takes priority over artificial uniqueness. Genuine homographs are retained when their learner meaning and grammatical role differ. A source-backed pronunciation key is taught in Foundations; sentence drills then use normal target-language spelling rather than inconsistent ad-hoc romanization.

# Vocabulary 751-1000

Cover the meaning, retrieve it, then write the target item from memory. Legitimate homographs may recur only when learner meaning and grammatical role differ.

751

يسمح

allows; permits  
imperfect / present verb

752

أهداف

goals; objectives  
noun

753

يسأل

asks; questions  
imperfect / present verb

754

ملعب

stadium; playing field  
noun

755

دقائق

minutes  
noun

756

فعلا

really; indeed; actually  
adverb

757

عسكرية

military  
adjective

758

معرض

exhibition; fair; display; exposed; susceptible  
(depending on vocalization/use)  
noun / passive participle / adjective

nature; character  
noun

999

مقابلة

interview; meeting; encounter; confrontation  
noun / verbal noun

---

1000

ابتعد

moved away; kept away; move away!  
perfect / past verb / imperative verb

---

# Sources, licensing, and QA scope

---

**Vocabulary:** drawn from this repository's canonical audited top-1,000 deck for the language. Repository source and audit records remain the source of truth.

**Sentence provenance:** Arabic and French sentence pairs originate from the ManyThings bilingual exports of the Tatoeba Project and retain their supplied sentence-level attribution under CC BY 2.0 France. Urdu v1.0 uses UALIS Publishing original controlled learner sentences; those rows carry UALIS source provenance and are not represented as third-party Tatoeba quotations.

**Editorial curation:** the sentence corpus is rendered from the versioned v1.0 row-decision ledger for each language. KEEP rows retain the audited pair exactly; approved corrections retain the row's original source provenance and are marked as editorial adaptations.

**Pronunciation foundations:** broad-IPA and articulatory guidance was cross-checked against Karin C. Ryding, *A Reference Grammar of Modern Standard Arabic*; Bernard Tranel, *The Sounds of French*; Saleem et al., *Urdu Consonantal and Vocalic Sounds*; and the Omniglot Urdu-script reference. These are broad learner reference targets, not a claim of one accent-free realization.

**Quality scope:** release gates check canonical dataset integrity, exact row-decision alignment, duplicate handling, source provenance, applicable external-license attribution, PDF structure, font support, and renderability. These controls materially reduce release risk but do not substitute for independent native-speaker certification; no absolute error-free claim is made.
